
Barry E. Sullivan Elected President

The Board of Directors and its shareholders take great pleasure in announcing Barry E. Sullivan has been elected President of BWMQ, effective immediately.

Mr. Sullivan, prior to joining BWMQ, was employed at the Federal Energy Regulatory Commission, with over 26 years experience in all facets of the natural gas, oil pipeline and electric utility regulation. Mr. Sullivan sponsored, directed and supervised a significant number of the natural gas pipeline, electric utility and oil pipeline rate proceedings set for formal hearings at the FERC. The proceedings concerned market power, cost allocation and rate design issues, oil pipeline rates, engineering issues, cost of service issues, electric generation interconnection and gas quality issues.

He joined BWMQ in September of 2005. Read Barry E. Sullivan's full bio.
