
Regulatory Testimony

Our consultants at Brown Williams have the experience, knowledge and tools needed to prepare, defend and evaluate regulatory testimony. We have testified successfully in hundreds of cases on every topic that confronts energy companies. Some of these matters, involving federal, state and international regulatory jurisdictions, include: rate cases, oil pipeline costs of service, mergers, acquisitions, divestitures, bankruptcy, tax matters, investigations, disputes and industry restructuring. Contact us to discuss your particular project and see Consultants to identify a consultant with the expertise you seek.
